<u>At the national level</u>, it is always better to have the posters prepared in either English or Hindi.

Information for participation under CWD group

Language

Presentation: The children under this category will be allowed to present their projects through oral presentation along with a written project report, similar to the children under normal category. Some of the visually impaired children will prepare their written reports in Braille, and in that case during oral presentation that child will be provided with the help of an **assistant**. In all other cases normal existing procedure will be followed.

Time: Although we have specified time of 8 minutes allotted for oral presentations, for the children with disability that might be **relaxed**.

Evaluation: At least **one of the evaluators must be a special educator**, who understands the needs and limitations of these children. Other members of the evaluation team in the room should also be compassionate and empathetic to the presenters.

All other conditions will remain same.
