- **Q.What is the most appropriate software for calculating in computer?**

Ans :Microsoft Excel

- **What is meant by 'LASER'?**

Ans: Light Amplification by Stimulated Emission of Radiation.

- **A complete Microcomputer system includes ?**

Ans: Microprocessor, memory, peripheral equipment.

- **What is Windows?**

Ans: A personal computer operating system from Microsoft.

- **What is computer networking?**

Ans: A system in which computers are connected to share information and resources.

- **What does 'System Software' Includes?**

Ans: The operating system and all the utilities that enable the computer to function.

- **What is the other name of 'Main Memory'?**

Ans: **Primary Memory**

- **What is full form of BSIC?**

Ans: **Beginner's All-purpose Symbolic Instruction Code.**

- **What is Telemedicine?**

Ans: A process of treatment through communication technologies.

- **Who is the inventor of punch card?**

Ans: **Joseph Marie Jacquard**

- **What kind of device is Monitor?**

Ans: **Output device**

- **What is 'facebook'?**

Ans: **A popular Social networking site**

- **What is 'OCR'?**

Ans: **OCR (Optical Character Recognition)** is a computer software designed to translate image of type written text.

- **What is Computer Virus?**

Ans: One kind of program, which is harmful to computer operation.

- **Two types of commonly used printers are?**

Ans: **Dot Matrix printer and Laser printer**

- **Write the name of different computer storage device.**

Ans. **Hard disk, Floppy disk, Compact disk**

- **Who is the legend of computer world?**

Ans: **Bill Gates**

- **What is the meaning of 'CC' in case of E-mail?**

Ans: Carbon Copy

- **The word 'Computer' is derived from?**

Ans: Compute

- **Adobe Photoshop is a – Graphics Software**

- **What is the name of the first Computer Network?**

Ans: **ARPANET** (Advanced Research Projects Administration Network)

- **What is the number of Computer Generation?**

Ans: **Five**

- **BIOS is a – Software**

- The IP Address 125.111.5.4 belongs to which of the following class – Class B

- A CD-ROM drive is labeled with 52X. Here 52X is a measurement of – Data Transfer Rate

- Data transfer rate of a Dial-up Modem is measured in – Kbps

- The most distinctive difference between LAN and a WAN is – Distance Covered

- Which of the following components (Hard Disk, Compact disk, Magnetic Tape, RAM) has the highest failure risk? – RAM

- **Which kind of mathematics does the computer use in operations? – Binary**

- The command 'Shift + Delete' will send the file to the? – this command will delete the file permanently

- The 'add or remove programs' utility can be found in – Control Panel
- **One Megabyte is equal to – 106 bytes**
- Which menu includes the command 'find' ? – Edit
- **The base 16 number system is – Hexadecimal**
- What kind of secondary storage is provided by magnetic disks? – Slow Speed, High Capacity
- Valid Ending for a MS-Word File is – .doc
- The computer stores its program and data in its – Memory
- **HTML** indicates – Hyper Text Markup Language
- **HTTP** stands for – Hyper Text Transfer Protocol
- **SMTP** stands for – Simple Mail Transfer Protocol

1. Kindle : Amazon :: Pi : ?

Ans: Infibeam

2. WeRead, Mime360, Champak.com, etc. are acquisitions by whom?

Ans: Flipkart

3. Identify this game

Ans: Bomb Gaza

4. Identify her and the company associated

Ans: Ursula Burns , Xerox

5. Garret camp is associated to what ?

Ans: Uber (Well , he is associated to Stumbleupon too)

6. Identify this mascot [hint: Little Rice]

Ans: Xiaomi

7. Windows+Lumia . What ?

Ans: Nokia

8. It was going to be named as "Lotatron", "semi conductor

diode:, "crystal diode", but it was named something else by John Pierce. What are we talking about?

Ans:Transistor

9.Expand ENIAC

Ans:Electronic Numerical Integrator And Computer

10.Which D2H provider broadcasts it's signals using MPEG-2 and MPEG-4 digital compression technology, transmitting using INSAT 4A satellite at 83 degree east?

Ans:TataSky

11.Which Microsoft executive resigned recently ?

Ans:Steve Ballmer

12.Yahoo has partnered with which company to help Yahoo mail users to attach files easily and quickly?

Ans:Dropbox

Answer: B

4. A(n) _____ system is a small, wireless handheld computer that scans an item's tag and pulls up the current price (and any special offers) as you shop.

A. PSS

B. POS

- C. inventory
- D. data mining

Answer: A

5. The ability to recover and read deleted or damaged files from a criminal's computer is an example of a law enforcement specialty called:

- A. robotics.
- B. simulation.
- C. computer forensics.
- D. animation.

Answer: C

6. Which of the following is NOT one of the four major data processing functions of a computer?

- A. gathering data
- B. processing data into information
- C. analyzing the data or information
- D. storing the data or information

Answer: C

7. _____ tags, when placed on an animal, can be used to record and track in a database all of the animal's movements.

- A. POS
- B. RFID
- C. PPS
- D. GPS

Answer: B

8. Surgeons can perform delicate operations by manipulating

devices through computers instead of manually. This technology is known as:

- A. robotics.
- B. computer forensics.
- C. simulation.
- D. forecasting.

Answer: A

9. Technology no longer protected by copyright, available to everyone, is considered to be:

- A. proprietary.
- B. open.
- C. experimental.
- D. in the public domain.

Answer: A

10. _____ is the study of molecules and structures whose size ranges from 1 to 100 nanometers.

- A. Nanoscience
- B. Microelectrodes
- C. Computer forensics
- D. Artificial intelligence

Answer: A

11. _____ is the science that attempts to produce machines that display the same type of intelligence that humans do.

- A. Nanoscience
- B. Nanotechnology
- C. Simulation
- D. Artificial intelligence (AI)

Answer: D

12. _____ is data that has been organized or presented in a meaningful fashion.

- A. A process
- B. Software
- C. Storage
- D. Information

Answer: D

13. The name for the way that computers manipulate data into information is called:

- A. programming.
- B. processing.
- C. storing.
- D. organizing.

Answer: B

14. Computers gather data, which means that they allow users to _____ data.

- A. present
- B. input
- C. output
- D. store

Answer: B

15. After a picture has been taken with a digital camera and processed appropriately, the actual print of the picture is considered:

- A. data.
- B. output.
- C. input.

D. the process.

Answer: B

16. Computers use the _____ language to process data.

A. processing

B. kilobyte

C. binary

D. representational

Answer: C

17. Computers process data into information by working exclusively with:

A. multimedia.

B. words.

C. characters.

D. numbers.

Answer: D

18. In the binary language each letter of the alphabet, each number and each special character is made up of a unique combination of:

A. eight bytes.

B. eight kilobytes.

C. eight characters.

D. eight bits.

Answer: D

19. The term bit is short for:

A. megabyte.

B. binary language.

- C. binary digit.
- D. binary number.

Answer: C

20. A string of eight 0s and 1s is called a:

- A. megabyte.
- B. byte.
- C. kilobyte.
- D. gigabyte.

Answer: B

21. A _____ is approximately one billion bytes.

- A. kilobyte
- B. bit
- C. gigabyte
- D. megabyte

Answer: C

22. A _____ is approximately a million bytes.

- A. gigabyte
- B. kilobyte
- C. megabyte
- D. terabyte

Answer: C

23. _____ is any part of the computer that you can physically touch.

- A. Hardware
- B. A device
- C. A peripheral

D. An application

Answer: A

24. The components that process data are located in the:

A. input devices.

B. output devices.

C. system unit.

D. storage component.

Answer: C

25. All of the following are examples of input devices EXCEPT

a:

A. scanner.

B. mouse.

C. keyboard.

D. printer.

Answer: D

26. Which of the following is an example of an input device?

A. scanner

B. speaker

C. CD

D. printer

Answer: A

27. All of the following are examples of storage devices EXCEPT:

A. hard disk drives.

B. printers.

C. floppy disk drives.

D. CD drives.

Answer: B

28. The _____, also called the "brains" of the computer, is responsible for processing data.

A. motherboard

B. memory

C. RAM

D. central processing unit (CPU)

Answer: D

29. The CPU and memory are located on the:

A. expansion board.

B. motherboard.

C. storage device.

D. output device.

Answer: B

30. Word processing, spreadsheet, and photo-editing are examples of:

A. application software.

B. system software.

C. operating system software.

D. platform software.

Answer: A

31. _____ is a set of computer programs used on a computer to help perform tasks.

A. An instruction

B. Software

C. Memory

D. A processor

Answer: B

32. System software is the set of programs that enables your computers hardware devices and _____ software to work together.

A. management

B. processing

C. utility

D. application

Answer: D

33. The PC (personal computer) and the Apple Macintosh are examples of two different:

A. platforms.

B. applications.

C. programs.

D. storage devices.

Answer: A

34. Apple Macintoshes (Macs) and PCs use different _____ to process data and different operating systems.

A. languages

B. methods

C. CPUs

D. storage devices

Answer: C

35. Servers are computers that provide resources to other computers connected to a:

A. network.

B. mainframe.

C. supercomputer.

D. client.

Answer: A

36. Smaller and less expensive PC-based servers are replacing _____ in many businesses.

A. supercomputers

B. clients

C. laptops

D. mainframes

Answer: D

37. _____ are specially designed computers that perform complex calculations extremely rapidly.

A. Servers

B. Supercomputers

C. Laptops

D. Mainframes

Answer: B

38. DSL is an example of a(n) _____ connection.

A. network

B. wireless

C. slow

D. broadband

Answer: D

39. The difference between people with access to computers and the Internet and those without this access is known as the:

A. digital divide.

- B. Internet divide.
- C. Web divide.
- D. broadband divide.

Answer: A

40. _____ is the science revolving around the use of nano structures to build devices on an extremely small scale.

- A. Nanotechnology
- B. Micro-technology
- C. Computer forensics
- D. Artificial intelligence

Answer: A

41. Which of the following is the correct order of the four major functions of a computer?

- A. Process ~ Output ~ Input ~ Storage
- B. Input ~ Output ~ Process ~ Storage
- C. Process ~ Storage ~ Input ~ Output
- D. Input ~ Process ~ Output ~ Storage

Answer: D

42. _____ bits equal one byte.

- A. Eight
- B. Two
- C. One thousand
- D. One million

Answer: A

43. The binary language consists of _____ digit(s).

- A. 8
- B. 2

C. 1,000

D. 1

Answer: B

44. A byte can hold one _____ of data.

A. bit

B. binary digit

C. character

D. kilobyte

Answer: C

45. _____ controls the way in which the computer system functions and provides a means by which users can interact with the computer.

A. The platform

B. The operating system

C. Application software

D. The motherboard

Answer: B

46. The operating system is the most common type of _____ software.

A. communication

B. application

C. system

D. word-processing software

Answer: C

47. _____ are specially designed computer chips that reside inside other devices, such as your car or your electronic thermostat.

- A. Servers
- B. Embedded computers
- C. Robotic computers
- D. Mainframes

Answer: B

48. The steps and tasks needed to process data, such as responses to questions or clicking an icon, are called:

- A. instructions.
- B. the operating system.
- C. application software.
- D. the system unit.

Answer: A

49. The two broad categories of software are:

- A. word processing and spreadsheet.
- B. transaction and application.
- C. Windows and Mac OS.
- D. system and application.

Answer: D

50. The metal or plastic case that holds all the physical parts of the computer is the:

- A. system unit.
- B. CPU.
- C. mainframe.
- D. platform.

Answer: A

Fill in the Blanks:

51. Between PCs and Macs, the _____ is the platform of choice for graphic design and animation.Answer: Mac

52. The _____ is the program that manages the hardware of the computer system, including the CPU, memory, storage devices, and input/output devices.Answer: operating system

53. The type of operating system software you use depends on your computers' _____.Answer: platform

54. _____ software helps you carry out tasks, such as typing a document or creating a spreadsheet.Answer: Application

55. _____ are the fastest and most expensive computers.Answer: Supercomputers

56. A _____ is approximately 1,000 bytes.Answer: kilobyte

57. Input devices are used to provide the steps and tasks the computer needs to process data, and these steps and tasks are called _____.Answer: instructions

58. A computer gathers data, processes it, outputs the data or information, and _____ the data or information.Answer: stores

59. The binary language consists of two digits: _____

and _____ .Answer: 0 and 1

60. A string of _____ 0s and 1s is called a byte. Answer: eight (8)

61. The devices you use to enter data into a computer system are known as _____ devices. Answer: input

62. The devices on a computer system that let you see the processed information are known as _____ devices. Answer: output

63. _____ is the set of computer instructions or programs that enables the hardware to perform different tasks. Answer: Software

64. When you connect to the _____ , your computer is communicating with a server at your Internet service provider (ISP). Answer: Internet

65. _____ are computers that excel at executing many different computer programs at the same time. Answer: Mainframes

66. _____ is the application of computer systems and techniques to gather legal evidence. Answer: Computer forensics

67. _____ is the science that attempts to create machines that will emulate the human thought process. Answer: Artificial intelligence (AI)

68. Macintosh computers use the Macintosh operating system (Mac OS), whereas PCs generally run _____ as an operating system.Answer: Microsoft Windows

69. A process known as _____ tracks trends and allows retailers to respond to consumer buying patterns.Answer: data mining

70. Hard disk drives and CD drives are examples of _____ devices.Answer: storage

71. You would use _____ software to create spreadsheets, type documents, and edit photos.Answer: application

72. _____ are computers that support hundreds or thousands of users simultaneously.Answer: Mainframes

73. _____ is the term given to the act of stealing someone's identity and ruining their credit rating.Answer: Identity theft

74. Surgeons are using _____ to guide robots to perform delicate surgery.Answer: computers

75. Patient _____ are life-sized mannequins that have a pulse and a heartbeat and respond to procedures just like humans.Answer: simulators

True and False

76. Currently, the performance of tasks by robots is based on pre programmed algorithms.Answer: True

77. Data can be a number, a word, a picture, or a sound.Answer: True

78. Strictly defined, a computer is a data processing device.Answer: True

79. The discrepancy between the "haves" and "have-nots" with regard to computer technology is commonly referred to as the digital society.Answer: False (digital divide)

80. One of the benefits of becoming computer fluent is being a savvy computer user and consumer and knowing how to avoid viruses, the programs that pose threats to computer security.

Answer: True

81. Trend-spotting programs, developed for business, have been used to predict criminal activity.Answer: True

82. Employers do not have the right to monitor e-mail and network traffic on employee systems used at work.Answer: False

83. Clicking on an icon with the mouse is a form of giving an instruction to the computer.Answer: True

84. Output devices store instructions or data that the CPU

processes.Answer: False (memory)

85. The CPU and memory are located on a special circuit board in the system unit called the motherboard.Answer: True

86. Nanostructures represent the smallest human-made structures that can be built.Answer: True

87. The main difference between a supercomputer and a mainframe is that supercomputers are designed to execute a few programs as quickly as possible, whereas mainframes are designed to handle many programs running at the same time (but at a slower pace).

Answer: True

88. Being computer fluent means that you should be able to build a computer yourself.Answer: False

89. Embedded computers are self-contained computer devices that have their own programming and do not receive input.Answer: True

90. A Web browser is a special device that is installed in your computer that allows it to communicate with other devices on a network.Answer: False (network adapter)

91. With a wireless network, it is easier to relocate devices.Answer: True

92. The most common type of memory that the computer

uses to process data is ROM. Answer: False (RAM)

Matching:

93. Match the following terms with their approximate size:I.

kilobyte A. one million bytes

II. byte B. eight bits

III. gigabyte C. one thousand bytes

IV. megabyte D. one billion bytes

V. terabyte E. one trillion bytes

Answer: C, B, D, A, E

94. Match the following terms with their meanings:I. printer

A. storage device

II. scanner B. output device

III. RAM C. input device

IV. CPU D. a type of memory

V. CD drive E. processor

Answer: B, C, D, E, A

95. Match the following terms with their meanings:I.

mainframe A. the most expensive computers that perform complex calculations extremely rapidly

II. supercomputer B. a computer that provides resources to other computers connected to a network

III. embedded computer C. a large, expensive computer that supports hundreds or thousands of users simultaneously

IV. PDA D. a self-contained computer device that usually performs preprogrammed functions such as temperature control

V. server E. a small mobile computing device

Answer: C, A, D, E, B

96. Match the following terms with their meanings:

I. software A. transforming data into information

II. hardware B. data that has been organized or presented in a meaningful fashion

III. operating system C. any part of the computer that you can physically touch

IV. processing D. a set of computer programs that enables hardware to perform different tasks

V. information E. the most common type of system software, it controls the way in which the computer system functions

Answer: D, C, E, A, B

97. Match the following terms with their meanings:

I. system software A. the set of programs that enables computer hardware devices and application software to work together

II. application software B. the kind of operating system software you will use depends on this

III. platform C. operating system software generally used on PCs

IV. Microsoft Windows D. a set of programs used to accomplish a specific task

V. Mac OS E. operating system software used on the Apple Macintosh

Answer: A, D, B, C, E

98. Match the following terms with their meanings:

I. data A. the main circuit board in the system unit

II. memory B. the representation of a fact or idea (unprocessed information)

III. output C. processed data or information

IV. storage D. holds instructions or data that the CPU processes

V. motherboard E. data or information that can be accessed again

Answer: B, D, C, E, A

99. Match the following terms with their meanings:
I. bit A. the science revolving around the use of nanostructures to build devices on an extremely small scale

II. binary language B. the case that contains the system components

III. instructions C. consists of 0s and 1s

IV. system unit D. short for binary digit

V. nanotechnology E. steps and tasks necessary to process data into usable information

Answer: D, C, E, B, A

100. Match the following fields to the related computer technology:
I. medicine A. Internet research and virtual tours

II. business B. data mining

III. law enforcement C. robotics and simulation

IV. education D. computer forensics

V. archeology E. digital recreations of ruins

Answer: C, B, D, A, E

Kalyan Regional Community Science Center, Bhavnagar Rural I.T Quiz 2016 (District Level)

Date: 13th August, 2016 Venues: Govt. Medical College, Bhavnagar

Round – 1 Pokemon Round (Answer Key)

Name of School: _____

Name of Student: _____

1) Name : _____ 2) Name : _____
Std.: _____ Std.: _____

| | | | | | | | | |
|----|----|----------------------------------|----|----------------------------------|----|----------------------------------|----|----------------------------------|
| 01 | A. | <input type="radio"/> | B. | <input type="radio"/> | C. | <input checked="" type="radio"/> | D. | <input type="radio"/> |
| 02 | A. | <input type="radio"/> | B. | <input checked="" type="radio"/> | C. | <input type="radio"/> | D. | <input type="radio"/> |
| 03 | A. | <input checked="" type="radio"/> | B. | <input type="radio"/> | C. | <input type="radio"/> | D. | <input type="radio"/> |
| 04 | A. | <input type="radio"/> | B. | <input checked="" type="radio"/> | C. | <input type="radio"/> | D. | <input type="radio"/> |
| 05 | A. | <input type="radio"/> | B. | <input type="radio"/> | C. | <input type="radio"/> | D. | <input checked="" type="radio"/> |
| 06 | A. | <input type="radio"/> | B. | <input checked="" type="radio"/> | C. | <input type="radio"/> | D. | <input type="radio"/> |
| 07 | A. | <input type="radio"/> | B. | <input type="radio"/> | C. | <input type="radio"/> | D. | <input checked="" type="radio"/> |
| 08 | A. | <input type="radio"/> | B. | <input checked="" type="radio"/> | C. | <input type="radio"/> | D. | <input type="radio"/> |
| 09 | A. | <input type="radio"/> | B. | <input checked="" type="radio"/> | C. | <input type="radio"/> | D. | <input type="radio"/> |
| 10 | A. | <input type="radio"/> | B. | <input type="radio"/> | C. | <input checked="" type="radio"/> | D. | <input type="radio"/> |
| 11 | A. | <input checked="" type="radio"/> | B. | <input type="radio"/> | C. | <input type="radio"/> | D. | <input type="radio"/> |
| 12 | A. | <input type="radio"/> | B. | <input type="radio"/> | C. | <input checked="" type="radio"/> | D. | <input type="radio"/> |
| 13 | A. | <input type="radio"/> | B. | <input checked="" type="radio"/> | C. | <input type="radio"/> | D. | <input type="radio"/> |
| 14 | A. | <input type="radio"/> | B. | <input checked="" type="radio"/> | C. | <input type="radio"/> | D. | <input type="radio"/> |
